Ears

Spiritual Correspondence of the Ears

Hearing the truth and the still small voice of God is the spiritual purpose for our ears. Applying what we hear from God maintains a spiritual balance that is necessary for the greatest energy flow to our ears. In the highest heavens, truth that is heard by the angels is immediately implemented into life. This constitutes life in the celestial heavens where hearing and doing are one. Truth that is heard and thought about first, before being implemented, constitutes life among the spiritual angels. The more we listen and implement what is true and good, the deeper our connection will be with the angels of that particular realm.

Spiritual Causes of Hearing Problems

Problems with the ears occur because of what we are listening to or what we refuse to listen to. Listening to erroneous ideas, gossip, or refusing to hear the truth about ourselves can produce hearing problems. If our eardrums are damaged, our balance may become affected. This corresponds to listening to wrong ideas that have created instability in our walk of life. If we have hearing problems from birth, the spiritual cause is produced from the behaviors of those in our hereditary line who had strong habits of refusing to hear the truth. Once we have made a habit of identifying these causes in our lives, we have set in motion spiritual healing. Refusing these tendencies in our own lives will draw angelic forces to us that will assist in healing our ears.

Spiritual Causes for Itching Ears

One reason why our ears itch is that we are listening to things that are not good or true. This is usually because of lies that we believe. We are not aware that these are lies at the time, but we can consider them convenient truths: lies that we want to be our truth.

I had itching ears during a time of great duress, and failed to identify the spiritual cause. After a time, I realized that I was not listening to what was good or true. Once I recognized the correlation to my condition, I saw the necessity of hearing what I did not want to. I addressed this negative desire as a spirit, cast it out in Jesus's name, and replaced it with an entreatable angel. The itching disappeared.

Spiritual Causes of Itching Ears (continued)

“God is present with us to the degree
that we love goodness and truth.”ⁱ

Willingness to listen to anything from anyone can only help us be a better person. Others may say things wrong that hurt us, but there is truth there. Listening to the truth from our enemy will help us be wise as a serpent—but harmless as a dove.

When our heart turns away from wanting to hear the truth, we draw to ourselves teachers and acquaintances that are of like disposition to confirm the falsities that we are calling our “truth.” Unless we have light from the Word of God to expose the error, we can easily succumb to lies: personal ones, social ones, religious ones, or lies accepted by our generation.

“For the time will come
when they will not endure sound doctrine;
but after their own lusts shall they heap to themselves
teachers, having itching ears;
And they shall turn away their ears from the truth,
and shall be turned unto fables.”ⁱⁱ

Spiritual Causes of Ear Infections

Ear infections are painful and reflect more anger or rage at being told something that we do not want to hear. Inflammation corresponds to inner anger and stress. Rejecting advice reveals an unwillingness to change our present behavior. The anger is utilized as a smoke screen to prevent us from hearing or doing what is right.

Children under the age of accountability who get ear infections are reflecting the anger of their parents. Parents can then make an application for themselves by identifying their refusal to listen, casting it out of their life through prayer, and replacing it with entreatable actions. This will assist in their child’s healing. I have witnessed this many times in my life with my children and other children. Once the parents get the message, the child’s healing begins.

Parents can be an example of the behavior that they want their children to emulate. Children are keen at watching and copying the behaviors of parents and friends. If we are honest with ourselves and correct

our behavior in their presence, they will learn from it. Surrounding them with positive examples will help them understand the importance of listening.

Learning to be entreatable to God's voice is a day-to-day leading that requires us to be spontaneous and open to change. This way we learn how to let God lead us, and our children will follow our example.

Antidotes for Ear Infections

“A fool hates his father's instruction, but a wise son puts it into practice.”ⁱⁱⁱ

“And you must think constantly about these commandments I am giving you today. You must teach them to your children and talk about them when you are at home or out for a walk; at bedtime and the first thing in the morning.”^{iv}

“Poverty and shame is waiting for those who refuse instruction, but he who accepts criticism will be honored. It is nice to see things come together, but fools refuse to change even when they see it is wrong. You become wiser by associating with wise men.”^v

The more we practice listening to the intuitive voice of God within ourselves and act on it, the greater the flow of healing energy to our ears.
